

BOYS ASK HARDING TO BE ONE OF THEM

140,000 Lads Want President to Head Their Federation.

(INTERNATIONAL NEWS SERVICE)
WASHINGTON, Feb. 27.—President Harding was asked by Eddie Ambrose, 14, of the Newsboys' Club of New York, to become honorary president of the Boys' Club Federation, with a membership of 14,000 boys in all parts of the United States.

Eddie called upon the president at the white house today and extended the invitation in person.

After explaining to the president the scope of the organization which he represented, Eddie declared that the motto of the Boys' Club Federation was "character building for citizenship," and said:

"The club to which I belong has in its membership boys of more than a score of different nationalities. Boys of all nationalities, creed and color are welcome, but we all are Americans and love the country of which you are president. We do not wish to boast of our loyalty—we live it, sir. From our club there went to service in the late war 2,550 boys. Twenty-eight made the supreme sacrifice and such, Mr. President, is the record of other clubs, the membership of which we have the honor to represent here today."

"We come on behalf of the 140,000 boys of the boys' club federation, begging you to honor us by becoming our honorary president. We appreciate you have risen from humble circumstances to the most honored position within the gift of our country. We realize that you have won the highest respect and esteem of not only your own, but of the nations of the world. Your achievement exemplifies the truth that in America a humble beginning is not a handicap to greatness, but America stands for opportunity for every boy."

The president was presented with a petition signed by thousands of boys asking him to become the honorary chief of their organization.
